Interactive Infographics to Combat Bullying in School

Welcome to Sticks and Stones Project!

Whether you follow us from the beginning or you are a recent member of our team, thank you! Remember that not only you can follow the project on the newsletters you receive but also by following partners' Facebook pages where we release some updates of the project and on the project's website: <https://sticksnstones.eu/en/>

Project's results

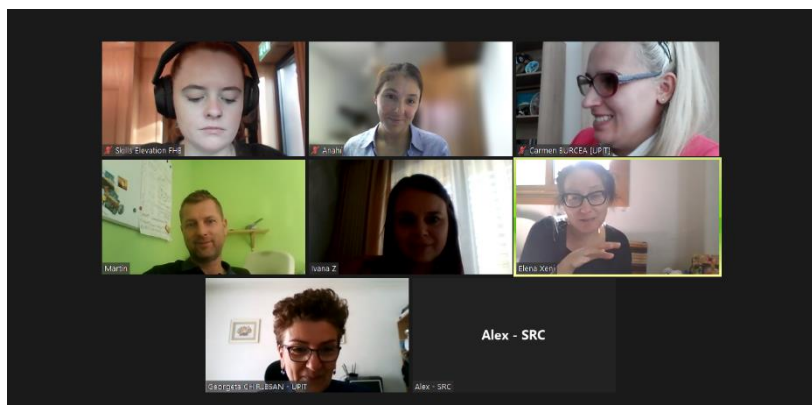

OUR MATERIALS ARE ALMOST READY!

All materials produced by Sticks'n'Stones project consortium have been developed and now are in testing face.

Stay tuned! Very soon they will be open to everyone in the project's page: [eLearning - Sticks'n'Stones \(sticksnstones.eu\)](https://sticksnstones.eu/en/)

Partners' meetings

Partners have been holding different online meetings to keep up with the work.

ONLINE MEETING
7TH OCTOBER

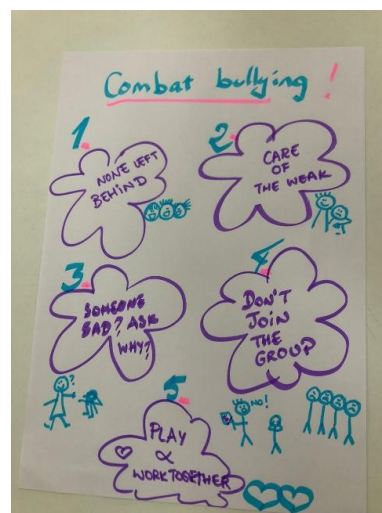

In August 2022 the consortium held a blended meeting where next steps were established:

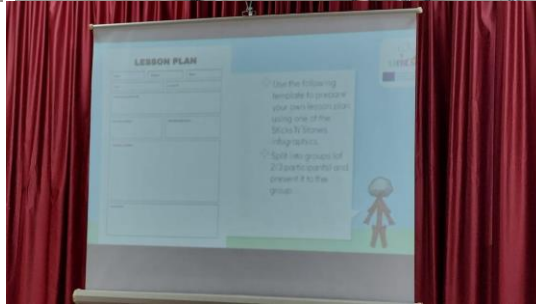

- Piloting updates for IO1, IO2 and IO3
- Status of the platform
- Dissemination, exploitation and impact
- Internal reports
- LTTA

Finally, our most recent event took place in beautiful Rafina, Greece where some teachers attended an LTTA to check all the material developed and to have some practice to share with their colleagues after.

The host, First Primary School of Rafina organized the activities in the school so the group also had the opportunity to visit the facilities and collaborate in some activities with the students. We also had the opportunity to meet a member of the Electronic Crime Prosecution Directorate of the Hellenic Police.

Next steps

Our next steps for the following months will be to hold national workshops with parents to test the Resources we have developed for them. Furthermore, we will also test the material from the toolkit in our schools to make any improvement before the finalization of the project.

Final conference in Ostrava: the last milestone in the project is to hold a final conference to officially launch the suit of educational materials to support the 'whole-school' approach to tackling instances of bullying in primary schools, to other local primary school communities, parents committees and associations and to national and regional policy and decision-makers in the remit of primary education, who have not been directly involved in the development and implementation of the project; thus, expanding the exploitation potential of the project through this event.
